

Dear Neighbor:

During these challenging economic times, I am fighting to create private sector jobs in our area. For far too long, Trenton and Washington have shortchanged South Jersey and Shore area households. New Jersey families pay too much in taxes and do not get enough back in return.

That's why I am working hard to meet with New Jersey residents to hear your priorities. All of the federal appropriations funding I am requesting is intended to create jobs, rebuild the economy, and support seniors and veterans. I actively invited applications from local elected officials, nonprofits, and businesses that wished to request projects that would help our region.

It's time to bring more accountability and transparency to Washington, which is why I am posting a complete list of appropriations requests on my website for the public to view. I am also not requesting appropriations for for-profit companies. Furthermore, I have certified that I do not have any financial interest in any requested projects.

It will be at least a few months before I know the outcome of these requests. Feel free to contact me, or any member of my staff with any questions. I am here to help and serve you.

Sincerely,

John Adler

Allies Inc. (\$664,000) Mount Holly Vocation Program

1262 Whilehorse-Hamilton Square Road, Hamilton, New Jersey 08690

This project will renovate a currently vacant building located in Mount Holly, New Jersey, into a commercial cooking site to teach people with special needs. The site will teach food service skills to a special needs population which can transition into the workplace. This funding will spur growth in the Mount Holly economy by creating 30 jobs.

Berkeley Township (\$2,500,000) for Gravel Roadway and Stormwater Improvements

Berkeley Township, 627 Pinewald-Keswick Road, Bayville, New Jersey 08721

This funding would make an enormous impact in improving the quality of life for the residents of Berkeley Township. It will improve ease of transportation, provide storm water management and water quality improvements, erosion control, and improve the overall quality of the

Township of Berkeley. It will also provide an immediate stimulus to our local economy by creating numerous construction and engineering related jobs.

Borough of Beach Haven (\$1,000,000) for the Beach Haven Water Main Replacement Project

Borough of Beach Haven, 300 Engleside Avenue, Beach Haven, New Jersey 08008

This funding will be used to replace the deteriorated and undersized water main throughout the Borough of Beach Haven.

Borough of Ocean Gate (\$575,000) for Sanitary Sewer Rehabilitation

Borough of Ocean Gate, 801 Ocean Gate Avenue, Ocean Gate, New Jersey 08740

Funds will be used to rehabilitate the Borough's sanitary sewer system. The Borough's sanitary sewer system is over 30-years-old and is in dire need of a new, more efficient, and more accessible system. This project will protect the health and welfare of the Borough's residents by delivering a safer, cleaner sanitary sewer system.

Borough of Seaside Park (\$1,500,000) for Water & Sewer Improvements

Borough of Seaside Park, 1701 North Ocean Avenue, Seaside Park, New Jersey 08752

This funding will be used to replace water and sewer lines and mains on the bayside blocks of Seaside Park. The bayside area is especially vulnerable to deterioration of the water and sewer infrastructure. This project will help to ensure that safer drinking water and sewage is delivered to area residents and businesses.

Borough of Ship Bottom (\$1,000,000) for the Township's Water Main Replacement Project

Borough of Ship Bottom, 1621 Long Beach Boulevard, Ship Bottom, New Jersey 08008

The funds will be used to replace small, leaking water mains, which will conserve water and provide proper water pressure to the Borough of Ship Bottom, New Jersey. Properly sized water mains and service connections will conserve water by eliminating leaking pipes and joints. This project is important to protecting the health and safety of the Borough's residents.

Borough of Tuckerton (\$1,000,000) for the Tuckerton Water Main Replacement Project

Borough of Tuckerton, 140 East Main Street, Tuckerton, New Jersey 08087

This funding will be used to replace the deteriorated and undersized water main throughout the Borough of Tuckerton.

Brookfield Schools (\$495,000) for Energy Efficiency Upgrade

Brookfield Schools, 1009 Berlin Road, Cherry Hill, New Jersey 08034

This funding will be used to improve energy efficiency at two of the school's facilities. Both of these facilities are over 40 years old and require structural improvements, including new windows and heating. This funding will enable the school to put as much of their revenues towards the instructional costs related to providing educational and therapeutic services for students with significant social and emotional concerns.

Catholic Charities (\$350,000) for the Providence House Domestic Violence Services Counseling Center

Burlington County, New Jersey

Funds will go towards the purchase and construction of a 9,000 square foot facility for a new counseling center for victims of domestic violence in Burlington County, New Jersey. Providence House Domestic Violence Services Counseling Center offers counseling services that are comprehensive and sensitive to a victim's needs as well as to those of her children. All services are free and include individual and group counseling as well as case management, advocacy and access to a food pantry.

Cherry Hill Township (\$1,000,000) for an Environmental Impact and Infrastructure project

Cherry Hill Township, 820 Mercer Street, Cherry Hill, New Jersey 08002

This funding will be used for the installation of more efficient lighting, climate-control systems, and HVAC upgrades throughout the Township's buildings. Additionally, this funding will cover ongoing project costs associated with the installation of solar equipment at Town Hall, Public Works and other municipal buildings. Lastly, the funding would also allow the Township to invest in the latest energy-saving IT equipment and to consolidate numerous older servers and other infrastructure in order to limit overall consumption and streamline operations for years to come.

Cherry Hill Township (\$228,125) for an Emergency Operations Center

Cherry Hill Township, 820 Mercer Street, Cherry Hill, New Jersey 08002

Funding will be used to outfit a new Emergency Operations Center that will allow Cherry Hill to strengthen its coordination and subsequent response in both routine events and emergencies that may arise. The funding would provide for technology investments and upgrades that would make it easier for our local first-responders to coordinate with county officials, School District and municipal staff that respond in such emergencies. This funding would allow the Township to install communication equipment which is interoperable with all of our partners, and allow for the integration of computer technologies that would allow for the management of incoming and outgoing information and the maintenance of an extensive GIS database for our community. This project will benefit the 75,000 residents and thousands of commuters who work in Cherry Hill on a daily basis, as well as residents in neighboring communities.

Cherry Hill Township (\$817,000) for Public Safety Improvements

Cherry Hill Township, 820 Mercer Street, Cherry Hill, New Jersey 08002

The funds would be used to purchase new in-car video cameras, which benefit the safety of both Township officers and Township residents and new laptop computers that will enhance the usefulness of the computerized records system.

Children's Specialized Hospital (\$250,000) renovation of Toms River Facility

94 Stevens Road, Toms River, New Jersey 08753

The Children's Specialized Hospital in Toms River will use these funds to improve and renovate the campus. The improvements will create a refurbished environment for Children's Specialized Hospital's 24 long term care beds, and to allow for further growth. Improving the campus will create a friendly environment for the younger patients visiting to receive care.

Community Medical Center (\$500,000) Neuro Interventional Suite

99 Highway 37, West Toms River, New Jersey 08755

Community Medical Center will use the funds to create a Neuroscience Institute that will provide Ocean County residents access to the latest technology and specialists in the treatment of brain injuries. The funding will help meet the goal of returning patients to their independent and active lifestyles.

Deborah Heart Foundation (\$1,555,000) to create a new State-of-the-Art Hybrid Operation Room

20 Pine Mill Road, Browns Mills, New Jersey 08015

Deborah's new Operating Room will be the first surgical suite where patients can get diagnosed and treated in one visit, for less downtime and a speedier recovery. It will combine advanced technology with an environment where doctors can provide patients with the best possible care to achieve better outcomes, and allow hundreds of patients a year to avoid open vascular and heart surgery through a variety of other minimally invasive cardiac or vascular procedures.

Delanco Township (\$73,000) for the Delanco Station Parking Extension

Delanco Township, 770 Coopertown Road, Delanco, New Jersey 08075

The current parking area at the Delanco Light Rail Station has proven to be inadequate as overflow parking lines adjacent roadways on a daily basis. The situation is not only detrimental to the residential neighborhood, it is also hazardous to riders, as it is currently more convenient for them to cross the tracks at unauthorized locations rather than using the designated crossing and entrance to the station. This project will improve safety for community light rail riders.

Fort Dix (\$8,900,000) to establish an Automated Multipurpose Machine Gun Range

5417 Alabama Avenue, Fort Dix, New Jersey 08640

The Multipurpose Machine Gun Range is required to train and test soldiers on the skills necessary to detect, identify, engage and defeat stationary and moving infantry targets in a tactical array. The Machine Gun Range is imperative to the mission of Joint Base McGuire/Dix/Lakehurst and provides a training location for the entire Northeast corridor.

Fort Dix (\$1,442,820) to construct a UPH barracks facility

5417 Alabama Avenue, Fort Dix, New Jersey 08640

The UPH is a 90,000 square foot facility to provide state of the art living space for Servicemembers assigned to US Fort Dix. They currently have a barracks shortfall as evidenced by the personnel they are currently housing in leased privatized housing at a cost of approximately \$540,000 per month. The construction of the barracks facility will create a permanent structure including state of the art technology. If the full funding is not available in Fiscal Year 2011, securing the design portion will enable Fort Dix to begin the planning phases for this project.

Fort Dix (Policy Language Submission) for a new Airfield Parking Apron

5417 Alabama Avenue, Fort Dix, New Jersey 08640

This language will appropriate funds to construct an aircraft parking apron and ramp to connect existing Arrival/Departure facility to an existing taxiway. The new apron is needed to increase efficiency in support of cargo/personnel movement. Failure to complete the project will have a negative impact because it will force Army pre-deployment/mobilization mission requirements to compete with Air Force primary missions at McGuire AFB. This project is needed for the

increasing mission requirements of both services.

Kennedy Health System (\$680,000) to Purchase Equipment for patient safety

2201 Chapel Avenue, West Cherry Hill, New Jersey 08002

Kennedy Health Systems will purchase a new imaging equipment system to better diagnose and effectively diagnose cancers in its earliest stages. The equipment will add to the multi-use facility and will serve an area that currently has limited access to sophisticated cancer diagnostics and treatment. Most importantly, this will allow for New Jersey residents to remain in their state for their health care.

Long Beach Township (\$975,000) for Beach Avenue Reconstruction

Township of Long Beach, 6805 Long Beach Boulevard, Brant Beach, New Jersey 08008

As a result of its higher elevation, Beach Avenue along with its connection to Ocean Boulevard to the north provides an emergency evacuation route for the residents of Long Beach Island during major storm events. The proposed project will include the installation of storm water drainage as well as reconstruction of the asphalt roadway to provide better vehicular and pedestrian access along the Atlantic Ocean Front of Long Beach Island.

Lourdes Medical Center in Burlington County (\$1,300,000) to purchase Radiology Equipment

218A Sunset Road, Willingboro, New Jersey 08046

Lourdes Medical Center will use the funding to purchase necessary, high-tech equipment, to increase patient access to diagnostic services and improve quality of care in the area. The capacity of the facility to care for patients will increase and the overall quality of the cancer programs at Lourdes Medical Center will improve. Cancer patients throughout New Jersey will benefit from this particular project.

McGuire Air Force Base (\$3,000,000) to begin the Electrical Distribution System, Phase II

2901 Falcon Lane, Suite 100, McGuire Air Force Base, New Jersey 08640

The funding will be used to replace the existing exterior power lines with underground primary electrical currents. In addition, new lighting poles and fixtures will be installed to meet base standards. These improvements will support the air mobility 24 – hour sustained operations without risk of failure or interruption of electrical service. This project can be phased through installments of \$3,000,000 over several fiscal years.

Medford Township (\$2,000,000) for Roadway Improvements to Route 70

Medford Township, 17 N. Main Street, Medford, New Jersey 08055

These improvements involve widening of Route 70 from two to four lanes from just west of Eayrestown Road to Chairville Road, the upgrade of the Route 70/Eayrestown Road intersection by adding lanes and a new intersection on Route 70. The project includes plan, design, engineering, environmental review, right-of-way acquisition and construction. This project is key to the Township's redevelopment project and will create hundreds of permanent and temporary jobs.

Medford Township (\$500,000) for the Medford Sanitary Sewer Pipe Lining Project

Medford Township, 17 N. Main Street, Medford, New Jersey 08055

The funding will be used to replace numerous deteriorating sanitary sewer lines and improve the overall quality of the Township Wastewater Collection System, as well as increase the efficiency of the Wastewater Treatment Plant. This project will take measures needed to reduce and, in many areas eliminate, excess groundwater from entering the major collection pipes that run along the neighboring creeks. This project will protect the health and welfare of the Township's residents by delivering a safer, cleaner sanitary sewer system.

Meridian Health (\$2,000,000) Southern Ocean County Hospital Emergency Department Expansion

Monmouth Shores Corporate Park, 1350 Campus Parkway, Neptune, New Jersey 07753

Meridian Health will use the funding to expand the Emergency Department, totaling over 25,000 square feet, which quadruples the square footage of the department. The expanded department will house 40 treatment rooms plus a dedicated cardiac/trauma room, which is a 50% increase over the current design.

Mount Holly Township (\$1,500,000) for the South Pemberton Road (CR 530) Improvement Project

Burlington County Board of Chosen Freeholders, 49 Rancocas Road, Mount Holly, New Jersey 08060

The funding will be used to widen traffic lanes and improve drainage and signals along County Road 530. County Road 530, which carries over 25,000 vehicles per day, has a high accident rate. This project will improve safety along County Road 530 from US Rt. 206 to the Pemberton ByPass.

Ocean County College (\$3,500,000) for the Aviation Data Management and Control System for Amphibious Ships (ADMACS)

Ocean County College, College Drive, P.O. Box 2001, Toms River, New Jersey 08754

The ADMACS architecture provides integration and management for Mission Execution, Tactical Aircraft Control, Ship to Shore Movement (Air), and Interfaces with other shipboard systems. This initiative will partner Ocean County College with Navy Contractors to apply ADMACS' state-of-the-art technology to L-class amphibious ships to minimize the manual labor required to maximize operating effectiveness of the ship in satisfying both strike and humanitarian missions.

Ocean County College (\$446,000) to create a Homeland Security Education Center

College Drive, P.O. Box 2001, Toms River, New Jersey 08754

Funds will be used to implement a Homeland Security Education Center that will offer an Associate in Public Science degree with a certification in Homeland Security.

Pemberton Township (\$200,000) for Senior Citizens Bus Replacement Program

Pemberton Township, 500 Pemberton-Browns Mills Road, Pemberton, New Jersey 08068

In Pemberton Township public transportation provides senior citizens a means to run errands at local stores attend church, attend city council meetings, vote, and other activities. The program is designed to foster a more livable community and promote public transit as a viable alternative mode of transportation.

Special Education Parent Teacher Association in Toms River (\$497,490) to fund the program INSPIRE

251 Downhill Run, Toms River, New Jersey 08755

The funding will create a program titled INSPIRE which is a clinical after school program to help children with developmental disabilities, especially autism, adjust to secondary education. The program will also assist participants making the transition into adulthood and the workplace.

Sustainability and Energy Development Incubator (\$1,500,000) at Burlington County College Burlington County College

601 Pemberton-Browns Mills Road, Pemberton, New Jersey 08068

This project will create 200 jobs by supporting the start up and growth of fledgling companies in the areas of fuel cell technology, solar energy generation and transport, wind energy generation and transport and battery miniaturization and efficiency. Burlington County College seeks to construct an addition to be called the "Sustainability and Energy Development" incubator that will serve small businesses focused on sustainable energy. Specifically the funding will support the startup and growth of energy efficient businesses.

Township of Moorestown (\$1,500,000) for the Moorestown Library/Town Hall Renovation Project

Township of Moorestown, 2 Executive Drive, Moorestown, New Jersey 08057

This project will provide an immediate stimulus to Moorestown's local economy by providing construction, engineering, and jobs. It will also provide the community with a unique opportunity to retrofit existing structures and make them energy-efficient. A renovated Library also provides an ongoing catalyst for economic development in the region.

Township of Mount Laurel (\$2,236,000) for the Rancocas Creek Sewage Project

Township of Mount Laurel, 100 Mount Laurel Road, Mount Laurel, New Jersey 08054

Funds will be used to install public sewer in the Township of Mount Laurel. This project is important to ending ongoing health and safety issues by replacing the existing system with public sewer. This project will also create new jobs for area residents and businesses.

Township of Toms River (\$3,000,000) for Solar Photovoltaic Panels on Ocean County's Parking Deck in Toms River, New Jersey

Ocean County Board of Chosen Freeholders, 101 Hooper Avenue, Toms River, New Jersey 08753

This funding will be used to install a solar photovoltaic panel system on top of Ocean County's Parking Garage. This state-of-the-art system will not only cut the County's carbon emissions by a considerable amount, but will save taxpayers money as well. Conservative estimates find the project will reduce annual greenhouse gas emissions in an amount equal to 54 passenger cars, 687 barrels of oil, or the electricity consumed by forty-one (41) typical homes. The solar canopy will also save the County an estimated \$254,900 annually.

Trust for Public Land (\$350,000) for the West Creek Acquisition in the Edwin B. Forsythe National Wildlife Refuge

Trust for Public Land, 29 Community Place, Morristown, New Jersey 07960

This funding would be used to protect 79 acres of wildlife habitat as an addition to the refuge's

Barnegat Bay unit in Ocean County, New Jersey. The West Creek project is the highest priority acquisition for the refuge this year and will aid in preserving land and protecting the health of the Barnegat Bay.

U.S. Army Corps of Engineers (\$300,000) for the New Jersey Alternative Long-Term Nourishment, RSM Study

New Jersey Department of Environmental Protection, 401 E. State Street, Trenton, New Jersey 08625

This feasibility study is evaluating methods to manage New Jersey's coastal projects on a regional basis to ensure maximum benefits are achieved from the Federal investment and reduce long-term periodic nourishment costs.

U.S. Army Corps of Engineers (\$1,000,000) for the performance of maintenance dredging of Barnegat Inlet, New Jersey

New Jersey Department of Environmental Protection, 401 E. State Street, Trenton, New Jersey 08625

Funds will be used to clean and maintain the Barnegat Inlet. Fishing is a treasured family tradition for many residents of the third district, and for others, it is a source of their livelihood. Maintenance of the Barnegat Inlet is particularly important to continue the thriving fishing industry in Ocean County.

U.S. Army Corps of Engineers (\$10,000,000) for Shoreline Protection Project along the Coast of Long Beach Island, from Barnegat Inlet to Little Egg Inlet, New Jersey

New Jersey Department of Environmental Protection, 401 E. State Street, Trenton, New Jersey 08625

This funding will be used for a beach replenishment project along the coastline of Long Beach Island. This project is important to protecting homes and businesses along the Jersey Shore from severe storms and hurricanes that can cause flooding and property damage.

U.S. Army Corps of Engineers (\$250,000) for shoreline protection along the coastline of Long Beach Island, from Manasquan Inlet to Barnegat Inlet, New Jersey

New Jersey Department of Environmental Protection, 401 E. State Street, Trenton, New Jersey 08625

The funds will be used to perform beach replenishment from Manasquan Inlet to Barnegat Inlet to protect the communities along the shoreline. This project is important to protecting homes and businesses along the Jersey Shore from severe storms and hurricanes that can cause flooding and property damage.

Veterans of Foreign War (\$1,000,000) for the New Construction of Veterans of Foreign Wars Post 3020

Veterans of Foreign Wars of the United States Post 3020, 1125 South Fairview Street, Delran, New Jersey 08075

VFW Post 3020 has been a great asset to the surrounding communities. Their charitable arm has contributed tens of thousands of dollars to needy families. They have also established scholarships in the schools of the six surrounding towns and have helped with items the community needed but did not budget for, like fire and EMT equipment along with Police items.

They have been a great asset to the local senior citizens by giving their hall for a meeting place and a community center for dances and dinners. Similarly, the youth of our community uses the hall for meetings and fundraisers with the VFW sponsoring many trips and events for them.

Virtua Health (\$3,000,000) for a Women's Veterans Health Resource Center

401 Route 73 North, 50 Lake Center Drive, Marlton, New Jersey 08053

Virtua proposes to establish a collaborative VA-DoD Women Veterans and Servicemembers Joint Health Resource Center in conjunction with the Warrior Transition Program at Joint Base McGuire-Dix-Lakehurst. This program will study and identify demographics, risk factors, incidence and prevalence rates, medical and psychosocial needs of this community; develop an outreach plan to these women; and establish a "nurse navigator" program to direct women to appropriate health care resources.

YMCA Camp Ockanickon (\$500,000) for a Green Retrofit Program

YMCA Camp Ockanickon, 1303 Stokes Avenue, Medford, New Jersey 08055

The camp would use these funds to implement energy efficiency and energy conserving improvements and features for their structures, and for infrastructure related to the delivery of electricity and hot water for these structures lacking such amenities. The benefits enjoyed by the camp should this request be granted, would be shared by the community at large and set a positive example for the children who utilize the camp.
